Short history of the school

The name

- In 1969 appeared the former so called “Helping school” with 5 classes and 5 teachers in another building
- In 1993 the name was changed in “Special school for mentally deficient ”
- In 1999 became “Special school Nr. 1”
- In 2006 became “CSEI Nr. 1”

The students

- since 1969 the number of students was constantly growing
- In 1997 the school had 45 classes, 693 students, 74 staff. Since that peak, the number of students decreased based on the new government policy that sustain integration of pupils with special educational needs in regular schools
- Since 1999 we have home teachers for
- Since 2000 we provide services for day center “Casa Lumini”, a day center founded by a Dutch foundation for kids with severe and associated deficiencies
- Since 2003 we have teachers for hospitalized children (including children with HIV)
- Since 2003 we provide educational services for a foundation of orthodox church that offers supports for childrens from regular school that came from poor families
- Since 2004 we have supporting teachers from children with CES integrated in regular schools from Sibiu and villages near Sibiu
- Since 2005 we offer services for institutionalized children with severe disabilities – school and kindergarden
- Since 2007 we have preventoria school nr. 22 and kindergarden nr. 31
- Since 2008 we have 3 classes with children with autism
- Since 2008 we have a bus for children

Short history of the building

- The building was built before 1900- we don't know exactly when
- It is a historical monument of Sibiu

- Around 1944 it was a boy school under the patronage of the Evangelical Church
- A short period here lived 2 families
- Since 1953 it was a school for children who spoke German
- Since 1971 the building shelters this school
- Since 2005 the building is claimed by Evangelical Church

•Graduated students

After they graduated 8 classes here they go to special classes in professional schools for:

- auto mechanics
- Masons, painters,
- Textile makers
- Food industry

Some of them stay at home, or go to occupational centers

We had a grant project for school development for those kids: we organised activities in workshops (handicraft, Household, theater, modeling clay, painting, music therapy, plant care)
